

## AMENDMENTS TO THE SPECIFICATION

Please amend paragraph [0003] beginning at page 2, line 4, and ending at page 2, line 14, as follows:

[0003] In addition to personal computers and dedicated terminals, the data broadcasting service may be received by a television receiver, and new services making use of data broadcasting are expected. Specifically, by installing a receiver function for receiving broadcast data and a reproducing software program (a browser) in a television receiver itself, one can easily gain access to a wide ~~rang~~ range of information (independent data broadcasting) and enjoy service in which information linked with a television program is provided in text or pictures (program ~~lined~~ linked data broadcasting), even without a personal computer.
